

SITEHUB

SiteHub has many uses from a meeting point to an emergency station for your first-aid, fire and H&S items, a notice board for your regulatory documentation and more.

This all-in-one solution provides a home for the lot and is therefore an essential part of your on-site inventory.

Features include two ample shelves and a double-sided wooden backboard to mount mandatory information or equipment such as a first-aid box or fire blanket. SiteHub is weatherproof, self-supporting and built to last for years on construction sites. It's also painted in a highly visible red, so everyone will know where to find it.

DIMENSIONS	1850x1235x500mm (HxWxD)

Products not included. If positioned in an open area which is exposed to winds, we highly recommend weighing this unit down to prevent it from being blown around.

SITE HUB | FP

Innovative, quick to assemble and robust safety centre for storage of emergency equipment, safety signage and important site information.

The economical centres reduce labour and costs whilst keeping a high standard of safety on your sites.

It's flat pack design reduces heavy lifting, easy to transport and can be re-used time and again. Assembled by 2 people in just 90 seconds these safety centres really are the most economical way of setting up critical points around your sites with essential signage and emergency and evacuation equipment.

Configure the stations to your company requirements: Branding, Signage, Fire Evacuation/ First Aid Alarm, Extinguisher Equipment, Spill Control, First Aid, Lens Cleaning and PPE
