

Quality Policy Statement (5.2)

Bull Products Ltd has developed and implemented a Quality Management System to form part of its business management system, to ensure that the products & services offered meet the requirements for its customers and comply with all codes of practice, statutory and satisfy applicable requirements

The business management system (BMS) will ensure that the products and services offered are of a high standard, to which are continually assessed with the aim of consistency.

This policy and supporting procedures have also been developed to satisfy the requirements of the ISO 9001:2015 standard.

The implementation and development of the Business Management System within the Company has my personal commitment and support, and that of the management board and to our staff and customers.

All Quality related standards and activities are carried out by suitably experienced and trained personnel.

To ensure effectiveness of the (BMS), we will conduct internal quality audits that are performed on a regular basis. The overall system will be monitored under the control by the management board as routine using the Management Review meetings.

The Company endeavours not only to maintain high quality standards that have been adopted as part of the policy to show continuous improvement through both the internal systems and through monitoring customer's perception.

The achievement of the Company's Quality Policy and objectives are the responsibility of all personnel who are individually answerable for the quality of their work.

The management will ensure that the policy document, procedures are communicated, understood, adhered to and made available on the Company Website, displayed at key locations around the establishment and made available to all interested parties as and when requested and comply with all applicable legislation, regulations and codes of practice.

Adequate resource will be made available to assess, review, implement and change as is required by the standard.

This policy is being continually reviewed for its suitability

Signed: 

Bradley Markham
Business Development Director
