

Safety Helmet Face Visor

HEFAVI

- A clear visor to retro-fit to most plastic safety helmets
- Provides protection for workers on construction sites – and in other industries – during the COVID-19 return-to-work
- Provides protection from infectious droplets which can spread respiratory viruses
- It takes seconds to fit and the visor can be replaced easily when scratched, or according to specific site rules

- Provides splash protection from droplets and small liquid particles
- Food-safe PET 400 mic, suitable for freezing
- BS EN 166 (personal eye protection standard) accreditation
- Clips on to any plastic hard hat or bump hat
- Lightweight and suitable for prolonged wear
- Well-vented
- Masks, safety goggles, glasses, or beard snoods can be worn underneath
- 325mmWx205mmH
- clips: nylon and PLA
- strap: silicone
