

# Contactless Thermometer

## THERM01

- Digital infra-red, non-contact forehead thermometer
- Fast measurement
- 64 groups of memories
- Fever temperature prompt
- Certificates:
  - FDA
  - CE
  - ISO 13485

### Specification

Effective distance	5-8cm
Range	Body temperature: 35.0~42.9°C
Working condition	16.0~40.0°C, relative humidity ≤85%
Storage condition	-20.0~55.0°C, relative humidity ≤85%
Resolution	0.1°C
Clinical repeatability	±0.2°C
Power consumption	When off ≤10uW During measurement ≤30mW
Testing time	<0.5s
Power supply	DC 3v (2xAAA batteries)
Weight	About 97g
Size	93mmLx153mmWx41mmH

# Contactless Thermometer

## Product Description

Sensor made in Germany, exquisite technology, accurate measurement

Powered by 2\*AAA Batteries

Normal  
34.0~37.4°C  
Green backlight

Light fever  
37.5~37.9°C  
Orange backlight

Have a fever  
38.0~43.0°C  
Red backlight

When the temperature value is higher than 37.4°C, the backlight turns orange and emits an audible 'beep'. When the value exceeds 37.9°C the backlight turns red.
