

Pedal-Operated Hand Sanitiser Dispenser

POHS

- Free-standing pedal-activated hand sanitiser station
- No contact with hands
- Refillable with standard bottled sanitiser
- 100% mechanical
- No installation or power required
- Durable and robust
- Made in Britain

Ensure increased hygiene at work with this elegant, free-standing, pedal-operated, hand sanitiser station.

This stainless steel dispenser is fully mechanical, with a pedal mechanism that avoids hands making contact with the sanitiser bottle.

The dispenser doesn't need any permanent installation but can be fixed to the ground for stability. It has a large foot-plate and is vandal-proof.

It is compatible with any standard sanitiser bottle with a push-down top (max: 110mmWx300mmH) - Bull Products recommends the 70% alcohol 500ml sanitiser (ALSAN500ML).

Product characteristics

- Grade 304 brushed stainless steel
- Height: 1000mm
